Summary

Enthusiastic B.Tech Computer Science student with a strong foundation in programming and web development. Passionate about building efficient, user-focused applications and solving real-world problems. A quick learner with strong problem-solving skills and a commitment to continuous improvement.

Projects

AI-Based Code Review & Bug Detection Platform

- Developed a full-stack AI-powered system using **Python (FastAPI)** and **JavaScript** to analyze source code for bugs, vulnerabilities, and optimization opportunities.
- Implemented static code analysis using Python AST to detect issues like unused variables, high complexity, and poor coding practices.
- Integrated LLM-based APIs to generate intelligent suggestions, code explanations, and improvement recommendations.
- Built an interactive dashboard to visualize code quality metrics and automated review reports.
- Tech stack: **Python, FastAPI, JavaScript, HTML, CSS, SQLite, OpenAI API**

Double Blockchain Based E-Voting System

- Developed a secure e-voting platform using **Solidity smart contracts** deployed via Hardhat.
- Integrated **React.js frontend** with ethers.js for vote casting and real-time result fetching.
- Designed a dual-blockchain (public + private) model ensuring transparency and preventing double voting.
- Validated with 20+ users, achieving 100% vote consistency and cross-chain verification.
- Tech stack: **Solidity, Hardhat, React.js, ethers.js**

Emergency Ambulance Hiring Portal

- Built a web-based ambulance booking system with features like request handling, real-time status updates, and booking history.
- Developed admin modules for ambulance CRUD operations, booking management, and report generation.
- Implemented database-driven operations with filtering and efficient data handling.
- Tech stack: **PHP, MySQL**

Education

B.E. Computer Science and Engineering	2022 – 2026
BMS Institute of Technology and Management, Bengaluru	CGPA: 9.20 / 10.0

Intermediate (MPC)	2020 – 2022
Sri Chaitanya, Hyderabad	Score: 98.50%

Skills & Activities

- **Programming Languages:** Python, C++, JavaScript
- **Web Development:** HTML, CSS, React.js, FastAPI
- **Databases:** MySQL, SQLite
- **Core Concepts:** Data Structures & Algorithms, OOP, Operating Systems, Computer Networks
- **AI/ML:** NLP basics, LLM API integration
- **Developer Tools:** Git, GitHub, REST APIs
- **Libraries:** Pandas, NumPy, Matplotlib
- **Soft Skills:** Problem Solving, Communication, Teamwork, Time Management
- **Languages:** English, Telugu, Hindi
